Zel M. Fischer, Chief Justice

Missouri Supreme Court

207 West High Street

Jefferson City, Missouri 65101

Subject: Grand Jury Proceeding vs. William Tisaby

Dear Chief Justice Fischer:

It's time to put aside politics, the good ole boy connections, the opposition to change and restore some sibilance impartiality and fairness to this "so call" investigation. If the Special Prosecutor appointed by Judge Mullen investigation is about the alleged conduct of Mr. William Tisaby, then he should focus his investigative energies on that conduct.

For Judge Mullen to allow the scope of this investigation to exceed the initial scope of the perjury allegation of Mr. Tisaby brought to the police by the Grietens Defense team enabled a search warrant that is seemingly boundless aid abet the "night riding" tactics of opponents of the Circuit Attorney's reform efforts. Those opponents should focus on the ballot box if they have a problem with her approach and reform efforts.

Judge Mullen and Gerard Carmody have illustrated through their behavior that they cannot work past their bias that is driven by their pass professional relationships and personal disdain for the Circuit Attorney to be fair and impartial in performing their duties on behalf of the people of the City of St. Louis. Therefore, they should be replaced by the Court.

Sincerely,

Adolphus M. Pruitt, II, President
